

EMPLOYMENT OPPORTUNITIES IN SOUTH AFRICA FOR MEDICAL DOCTORS

Add some African experience to your professional profile and enjoy working in sunny South Africa.

Employment opportunities in the South African public health sector for Medical Doctors (General Practitioners) who are eligible to register with the Health Professions Council of South Africa (HPCSA) currently exist at various centres across the country. Positions are available from our highly advanced academic hospital complexes to the most rural hospitals (including some of the most scenic parts of the country) and in all nine provinces. We are prepared to offer competitive remuneration packages based on relevant clinical experience. Additional incentives, such as official accommodation and payment of area allowances, are offered to doctors who are keen to serve in some of our more rural areas and communities. Employment contracts may be negotiated, but can vary from one to three years.

The South African Department of Health will facilitate the process of registration with the HPCSA of successful candidates.

Please note the South African Government is a signatory to international agreements regarding recruitment from developing countries (outside of government-to-government agreements that would allow for such recruitment).

Doctors who are interested in expanding their experience in South Africa, can submit their CVs to the Department of Health at the following e-mail addresses:

smiths@health.gov.za (also for enquiries)

abooba@health.gov.za (applications only)

groenh@health.gov.za (also for enquiries)

An indication of your particular preference regarding possible placement would also be appreciated.

Application forms are available on the Department of Health website (doh.gov.za - link to FWMP) and should be submitted to: The Manager, Foreign Workforce Management Programme, Department of Health, Private Bag X828, Pretoria 0001, South Africa or fax: +27(0)12 312-0635/0535/0964.

Tel: +27(0)12 312-0467 (between 08:00 and 16:00 SA time).
